Meet Our Newest Artists!

Kathy Allen

My art seems to just flow out of me. I wake up almost every morning and a new image in my mind and just jump up and put it down on canvas. Art is my therapy. I have had multiple neurosurgeries since I was 19 and many times have come out from surgery with a new 'gift'. After my last surgery and a little hint from a friend, I found painting. I hope you can find something from my collection that catches your eye. I do special colors by request.

Ginger Copeland

I picked up a paintbrush for the first time in 2018 and have enjoyed experimenting with different media since then. I spent over 40 years as a court reporter and owner of a court reporting firm before retiring in 2020, and art served as a stress reliever for me in the latter part of that time. I mainly work with acrylics and glass and resin; I love seeing how glass and resin can bring a piece to life.

More than anything, I like exploring the possibilities of new processes and experiencing results that I never considered at the beginning, and if I create something that makes others happy, that is icing on the cake! Check out Ginger's workshop this month!

Sarah Prince

After learning stained glass at ArtForms Gallery, I found something that filled my soul with happiness. I bought my start up tools and materials at an auction and the rest is history.

I enjoy making stained glass artwork because I love seeing the finished panel or suncatcher. I relish how the light shines through and how it explodes with color. I love the wonder I feel, having created something so beautiful.

Working with stained glass is all about the light. The colors and intensity of the glass changes throughout the day. I always look forward to my next project and have 100's of ideas in my head of what I want to make next. It is the perfect creative outlet.

Flower Power! Fused Glass Artist: Dianne Miller

Glass flowers last all year and need no watering or sunlight to maintain their blooms! Attend this workshop and make a fused glass flower that won't wilt or fade! No glass cutting is required, but you will work with glass powder so a **face mask is required**. Using glass powders and water, participants will create a slurry in a variety of colors and design a glass flower to be fused on a ceramic mold. After drilling a hole, a copper tube will be inserted to make a free-standing flower for your

home or flower bed.

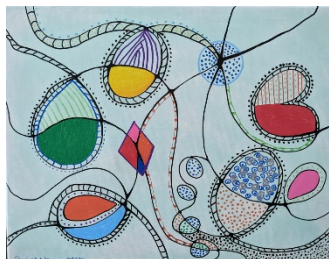

Easy and fun—you don't need a "green thumb" to "grow" these flowers! Oh, and you don't have to worry about watering your flower!

 - **Come and go anytime during the afternoon!**
 - Ages 12 and older
 - Workshop Fee: \$35; due at time of registration

Neurographic Art!

Come, relax, and destress before the holidays with an Art therapy class! Neurographic art is a process used to help make new neural paths in the brain.
