Sensory Inspiration

Artist: Janet Lewis

In this "Thrive in 2025" workshop with Janet Lewis, you'll explore finding artistic inspiration through your senses. If you're a visual artist, you're probably accustomed to using visual references for your work. But what about drawing what you hear or painting what you smell? If you're a musician, can you play what you see or sing what you touch? How do poets or writers find the words to express a sound or its impact? Are these cross-sensory experiences even possible? What value might they have in your creative work? Let's get together and find out! Bring some things that inspire you if you want to personalize this experience, ie favorite objects, poems, keepsakes, songs, flowers, instruments, images quotes, chocolate, cologne. We'll use them in a series of activities with time for discussion and reflection.

Gemini Season Personal Artwork

Artist: Neva Rowland

As a Gemini, Neva knows that sometimes they get a bad rap, but it's not our fault we are naturally chatty and curious! Gemini Season brings some flighty, social energy, and this astrological art workshop will help you harness it to break out of the ordinary.

There are two parts to this workshop.

First, Neva will help participants to look up their birth chart to see what other astrological luminaries are influencing the Gemini area of their chart.

Then, using that information, participants will write a personal affirmation or intention that they would like to embody during Gemini Season to guide the creation of their artwork.

Gemini is the bright and dynamic member of the zodiac and our artworks will feature lots of yellow! You don't have to be a Gemini to enjoy and learn a lot at this workshop!
