Neurographic Art!

Artist: Debbie Southard

This class helps you to work through different areas of life that you may be wanting to change or are struggling in. Neurographic art helps to form new neural paths in the brain. This is a relatively new technique and has been used about 5 years. It was developed by a Russian psychologist to help his patients work through different areas of life. When you are finished with the process

you can use markers, crayolas, or pencils to color in the areas. You are then left with your own unique piece of art.

- Saturday, May 20 | 2:00 - 4:00 p.m.
- Workshop Fee: \$30, due at time of registration
- Class limit: 10
- Ages: 18 and older
