Aries Season Personal Artwork

Artist: Neva Rowland

Most everyone knows their "sign" for their horoscope. But did you know that every astrological sign influences us in various ways?

There are two parts to this workshop. First, Neva will help participants to look up their birth chart to see what other astrological luminaries are influencing the Aries area of their chart.

Then, using that information, participants will write a personal affirmation or intention that they would like to embody during Aries Season to guide the creation of their artwork.

Aries is the fiery leader of the zodiac, so our artwork will feature lots of red! You don't have to be an Aries to learn a lot at this first in Neva's astrological workshop series.

Painting with Scissors

Artist: Janet Lewis

This "Thrive in 2025" workshop is a celebration of painter Henri Matisse and his example of how to pivot and adapt as an artist. When health issues limited his ability to paint and sculpt traditionally, he pivoted and began "painting with scissors." His colorful paper cutouts and what they represent have inspired artists for years. Join Janet Lewis in trying your hand at creating paper cutout

paintings in your own style. If you already draw and paint, challenge yourself to put down your pencil or brush and create similar imagery using only cut paper. No experience painting or drawing? No problem. Maybe you love to walk in nature and have photos or a bag of leaves and acorns to inspire you. From portraits to patterns, the possibilities using cut paper shapes are endless! Your cut paper creations will be secured to an 11"x14" canvas board suitable for framing.
